### About the Cinema

The State Cinema was opened in 1913 and, apart from a short period, has operated as a theatre and cinema, since that time.

Our twelve-screen boutique complex is nestled in the heart of the cosmopolitan North Hobart restaurant strip and is a wonderful blend of the original art deco styling, along with a large modern Café Bar and Bookstore on premises also.

The fully licensed Café Bar serves great coffee, premium local wines beers, and delicious light meals and snacks, from our beautiful multi-level extension. Sun-drenched and with stunning views across the city to the river, our Café Bar is a destination within itself. A Bar account to accompany your booking can be arranged.

If you would like to make a group booking to a regular scheduled session, the details on the following pages will give you a guide as to costs and requirements. Please have a look through this information and email us if you need any more details.

A minimum of 24 hours notice is required for group bookings. Session times are available each Tuesday morning for the film week commencing Thursday. Group Bookings do not include private use of a cinema, members of the public can also purchase tickets to the session.
